Coding Skills: Javascript

Poppy →

SwaggerHub - Microsoft Azure

Main talking Points

1. First, getting started.
2. What do you do when you don't know the language

First Getting Started

- I used Postman
- I used JavaScript

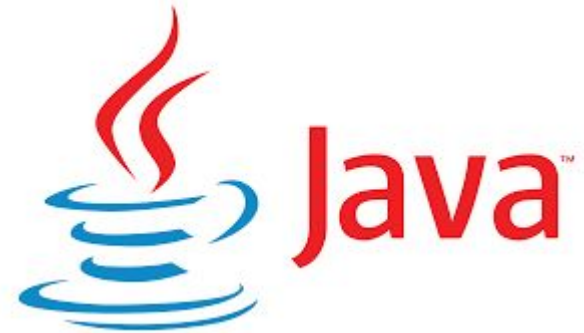

What do you do when you don't know the language

So what is Python?

What do you do when you don't know the language

What is Java?

yuuviv[®] Ultimate API

Build custom content / document management solutions.
